

HvZ Sponsorship Policy

A sponsorship is defined as any money, goods or services given to you (or your fellow moderators, or the organization in charge of hosting the game of HvZ) in return for the sponsor's right to associate themselves with your Humans vs. Zombies event.

You are free to set up a sponsorship for your game of HvZ so long as you notify us. That's all we ask, just let us know it's happening. In particular we want to know who your sponsor is and what they're giving you. We won't take a cut or stop you unless:

*You are receiving far more than is necessary or reasonable to run your game.

*You are associating with a sponsor that will hurt the reputation of HvZ.

- A bar is probably fine. A puppy killing factory is probably not.

If you would like to hear more about why this policy exists you can read about it [here](#).
